PRINCE & CO.'S
DESCRIPTIVE CATALOGUE

OF SELECT VARIETIES OF

STRAWBERRIES,

Comprised in their Unrivalled Collection.

Linnean Botanic Gardens and Nurseries,
FLUSHING, LONG ISLAND, N. Y.

FORTY-SIXTH EDITION.

N.B.—All orders are packed in a superior manner, and each article carefully labeled, and we guarantee the accuracy of every variety. The packages are forwarded by Express or otherwise as requested, and the Receipt is forwarded to the purchaser, thus protecting him against loss. The plants can be sent safely at every season of the year, when properly packed. Parcels can also be sent by mail at one cent per ounce.

PRICED CATALOGUES, which are sent to purchasers of Trees, and to applicants who inclose stamps. No. 1.—Descriptive Catalogue of Fruit and Ornamental Trees and Shrubs, Raspberries, Currants, and all other small Fruits. No. 2.—Roses, Carnations, Chrysanthemums, Phlox, Iris, Double Sweet Williams, and other Herbaceous Flowering Plants. No. 3.—Extra Large Fruit Trees, Evergreens, and other Ornamental Trees and Shrubs, suitable for immediate fruit-bearing and embellishment. No. 4.—Wholesale Catalogue for Nurseries and Dealers, comprising Trees, Shrubs, Roses, Plants, Bulbous Flower Roots, Stocks for Engrafting, &c. No. 5.—Wholesale Catalogue of Vegetable, Agricultural, and Flower Seeds, and Tree and Shrub Seeds, &c. No. 6.—Descriptive Catalogue of our Unrivalled Collection of 160 Select Varieties of Strawberries, with a REJECTED LIST, and Directions for Culture. No. 7.—Rare American Trees, Plants, and Seeds, suitable for sending to Europe (French and English editions). No. 8.—Wholesale List of Native and Foreign Grapes. No. 9.—Catalogue of Bulbous Flowers of every Class, together with Tree and Herbaceous Pæonies, Dahlias, Primroses, Poleanthus, Cowslips, Auriculas, Daisies, Iris, and other Rare Flowering Plants. No. 10.—Wholesale Catalogue of the same. No. 13.—Catalogue of Greenhouse Plants. No. 14.—Catalogue of 400 Native and 100 Foreign Varieties of Grapes.

Select Varieties of Strawberries.

THE following varieties of Strawberries have been carefully selected from the entire mass that has been brought to notice in this country and in Europe ; and all the others have been rejected, except a few that are under probation. We have still retained a few secondary varieties, which, being well known and popular, are usually demanded by those who are not yet familiar with the superior kinds.

Of the following assortment, forty-five of the most splendid varieties, designated by an asterisk (*), were originated by us, and selected from thousands of seedlings during the past seventeen years, and several varieties are now offered for sale for the first time, and the most of them are not in the possession of any other Nursery. These *American varieties* possess the advantage of great hardihood and productiveness.

Terms.—No less than a dozen are sold of any variety, unless they are priced per pair or otherwise. Persons sending orders must specify the edition of the Catalogue.

Terms, Cash with the order ; or, if more convenient, one half can be sent, and we will collect the balance through the Express.

	p.doz	p.50	p.100
1. *Adonis, P, large, round, compressed, bright light scarlet, handsome, sprightly, pleasant flavor, very productive, every flower forms a fruit, a late variety ; vigorous. A seedling of Imperial Scarlet.	1 00	2 50	4 00
2. Baltimore Scarlet, P, very early, medium, bright scarlet, short cone, showy, fine flavor, productive ; a valuable market berry. Per 500, \$3, per 1000, \$5.	25	75	1 00
3. Bartlett, H, large, obtuse cone, crimson, firm, juicy, good flavor, moderate bearer. Per 500, \$4, per 1000, \$7.	38	75	1 00
4. *Berenice, P, large, obtuse cone, light scarlet, red flesh, juicy, good flavor, firm for market, very productive.	1 00	2 50	4 00
Bishop's Orange, sometimes called "Dundee," small berry, <i>Rejected</i> .			
Boston Pine, H, very uncertain bearer, <i>Rejected</i> .			
Brighton Fine, inferior, <i>Rejected</i> .			
Boyden's Mammoth, poor bearer, <i>Rejected</i> .			
6. Burr's Pine, P, medium, light scarlet, very sweet, rich flavor, moderate crop, plant of weak growth. It has been unduly extolled. Price per 500, \$3, per 1000, \$5.	25	75	1 00
8. Charles' Favorite, P, large, obtuse cone, bright crimson, good flavor, productive. It greatly resembles its parent, the Hovey, in foliage and fruit ; ripens earlier. Per 500, \$3, per 1000, \$5.	25	75	1 00

	p.doz	p 50	p.100
9. Chilian , H, medium to large, conical, bright, crimson, tender, rich, firm, juicy, good flavor, very productive; plant very hardy, vigorous. Per 500, \$4, per 1000, \$7.....	38	75	1 00
Chorlton's Prolific , H, pale orange scarlet, medium to large, too acid, inferior flavor, juicy, suitable for preserving; vigorous, moderate bearer.....	38	1 00	1 00
Climax Scarlet , soft, dry, spongy, sour, <i>Rejected</i> .			
12. Coppock's No. 1 , originated by Prof. Coppock, and deemed by him an estimable market berry, and so proved by us. Per 500, \$4, per 1000, \$7.....	38	75	1 00
* Cornucopia , H and P, large, conical, scarlet, good flavor, firm, very productive, hardy, very vigorous, suitable for market. Per 500, \$6, per 1000, \$10.....	50	1 50	2 00
16. Crimson Cone (Scotch Runner) , P, medium, oblong cone, bright crimson, sprightly, acid, seeds deeply imbedded, very productive, vigorous growth. Price per 500, \$2.50, per 1000, \$4.....	25	75	1 00
21. Cutter's Seedling , P, from J. W. Manning, Massachusetts, quite large, light scarlet, obtuse cone with a neck, juicy, sweet, good flavor, very productive, long in bearing. Per 500, \$3, per 1000, \$5.....	25	75	1 00
22. * Diadem (Prince's) , P, very large, rounded, light scarlet, pleasant flavor, a remarkably beautiful berry, suitable for all purposes; very vigorous, hardy, exceedingly productive. Produces more than Wilson's Albany. A seedling of the Iowa. Price per 500, \$3, per 1000, \$5.....	25	75	1 00
Durfee's Seedling , poor flavor, <i>Rejected</i> .			
Early May , P, very early, obtuse cone, deep scarlet, fair quality; originated by Robert Buist, a highly intelligent cultivator of every class of Plants....	25	75	1 00
24. Early Scarlet (Early Virginia) , H, moderate size, conical, light scarlet, pleasant flavor, moderate bearer. This is probably the true Hudson's Bay. We have a pistillate variety, very sweet, and fine flavor, at double the price of this. Price per 500, \$2.50, per 1000, \$4.....	25	75	1 00
25. * Excelsa , P, very large, rounded or compressed, crimson, sweet, good, peculiar flavor, juicy, productive, valuable.....	1 00	2 50	4 00
26. Eclipse , P, rather early, medium to rather large, conical, fruit on strong upright peduncles, flowers small, every flower perfecting a fruit; beautiful, bright crimson, sprightly flavor; plant vigorous, very productive, with the remarkable property that all the berries ripen nearly at same time, a most valuable early market variety. Price per 500, \$3, per 1000, \$5.....	25	75	1 00

	p. doz	p. 50	p. 100
27. Excelsior (Heffron), originated in Ohio, not yet tested by us.			
28. Fragaria Lucida , from California, shining leaves, small berry, deep crimson, sweet, vinous, ripens late. Four plants for 50 cents.			
30. * Globose Scarlet , P, very large, nearly round, frequently $1\frac{1}{4}$ inches diameter, beautiful light orange scarlet, mild flavor, rather soft, very productive, plant hardy, very vigorous, large broad foliage. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
Harlaem Orange , A worthless imposition. <i>Rejected.</i>			
32. Hovey , P, very large, unequal in size, conical, dark crimson, splendid, fair flavor. It is grown extensively for market; but the higher flavored and brighter colored varieties command higher prices. Very productive when accompanied by a suitable staminate. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
33. Hudson , H and P, large, pointed cone, dark scarlet, firm, acid at first, sweet when full ripe, very productive, an old well-known market fruit. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
33½. Hooker , H, large crimson, conical, sweet fine flavor, sprightly, too soft for market, fair crop for its sex; plant vigorous, rather tender, sometimes winter-killed. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
34. Huntsman's Montevideo , P, large, light bright scarlet, short cone, on short stems, mild flavor, would probably be improved at the South. Ripens late, and continues two to three weeks, productive.	50	1 50	2 50
35. * Imperial Crimson , P, large, short cone or rounded, dark scarlet or crimson, fine color, sweet, sprightly, fine flavor, a first-rate berry, firm, productive. It is nearly as large as McAvoy's Superior, and much more suitable for transportation to market. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
36. * Imperial Scarlet (Prince's) , P, large, obtuse cone or rounded, bright scarlet, handsome, juicy, sprightly, very pleasant, firm for market, upright stalks, fruit clean; fruit not affected by rains, and remains long without decay; plant vigorous, foliage pale green; a peculiar variety, productive, very valuable. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
37. Iowa , H, (called "Washington," at Cincinnati), early, large, broad rounded, light orange scarlet, inferior flavor, fair crop for its sex, very hardy. A distinct species, native of our Western prairies. Price per 500, \$3. Per 1000, \$5.....	25	75	1 00
Jessie Read , P, poor flavor, soft. <i>Rejected.</i>			
■ Jenney's Seedling , sour, poor bearer. <i>Rejected.</i>			

	p.doz	p.50	p.100
Jenning's Indiana, P, rather large, obtuse cone with a neck, crimson, sweet, brisk flavor, excellent, very productive.	50	1 50	2 50
39 Jenny Lind, H, very early, rather large, oblong, conical, light bright scarlet, beautiful, good flavor, rather soft, productive for its sex, valuable early market fruit. Price per 500, \$3. Per 1000, \$5 ...	25	75	1 00
40. *Lawrencia, P, new, large, bright scarlet, obtuse cone, rounded, fine flavor, sweet, juicy, very good, productive, estimable.	1 00	2 50	4 00
41. *Le Baron, H, early, large, obtuse cone, dark red, sweet, rich, melting, highest flavor of all the large varieties, productive for its sex, long in bearing, vigorous, estimable. A seedling of the old Swainstone.	50	1 50	2 00
42. Ladies' Pine, P, moderate size, round, pale, scarlet, very sweet, exquisite flavor; indispensable to every amateur. Originated in Upper Canada from seed of Burr's Pine. Price per 500, \$3; 1000, \$5.	25	75	1 00
43. Longworth's Prolific, H, early, rather large, rounded, light scarlet, sweet, fine flavor, moderate bearer, large flowers. Price per 500, \$3; 1000, \$5.	25	75	1 00
*Long Stem (Reeves of Kentucky), not fully tested by us.	38	1 00	1 50
45. May Queen, American, P, medium, scarlet, fair flavor, rather acid, very productive, valuable for market. Early York is very similar.	38	1 00	1 50
Marylandica, very unproductive, a gross imposition. <i>Rejected.</i>			
48. McAvoy's No. 1, P, large, roundish, bright light scarlet, showy, very productive, rather acid, good when sugared and for preserves, ripens eight to ten days after the general crop; suitable for a late market berry, vigorous growth. A seedling of the Iowa. Price per 500, \$3; 1000, \$5.	25	75	1 00
McAvoy's Extra Red, we reject; it is the sourest and most worthless of all Strawberries, and is readily distinguished by its blood-red runners, and crimson fruit. It is astonishing that Longworth, Hooper, Warder and Sanders should have confused this and the preceding, and Mr. Downing, by adopting their blunder, was led into the same error, which he will correct.			
49. McAvoy's Superior, P, large, rounded, crimson, juicy, good flavor, very productive. A valuable family fruit, but too tender for market. Price per 500, \$3; 1000, \$5.	25	75	1 00
50. *Melanie, P, large, deep scarlet, conical, juicy, fine flavor, beautiful, very productive.	1 00	2 50	4 00

	p.doz	p. 50	p.100
51. Malvina , P, large, crimson, obovate, good flavor, firm, resembles Hovey, of more equal size, brighter color and better flavor, a week earlier, more valuable for market, very productive. Price per 500, \$6, 1000, \$10.....	50	1 50	2 00
Mouroe Scarlet , sour, without flavor. <i>Rejected.</i>			
Moyamensing , inferior quality. <i>Rejected.</i>			
55. Orange Prolific , P, large, obtuse cone, bright orange scarlet, showy, rather acid, not high flavored, suitable for preserves, very productive, strong upright fruit stems. Price per 500, \$3; 1000, \$5.....	25	75	1 00
56. * Ophelia , H, new, large, rounded, or obtuse cone. A seedling from Scarlet Magnate, and seems very similar to that variety in form and appearance, but differing in sexuality. The form of both, and of 105, is quite distinct from most other varieties....	1 00	2 50	4 00
57. * Paulinus , P, large, conical, bright scarlet, very juicy, fine flavor, very productive.....	1 00	2 50	4 00
58. Peabody , H, very large, oblong cone, firm, good flavor; runners long jointed. Is quite unproductive here, but adapted to the Southern States. Per 500, \$3; per 1000, \$5.....	25	75	1 00
Pennsylvanica , unproductive, an imposition. <i>Rejected.</i>			
59. * Primate , H, rather large, conical, deepscarlet, beautiful, firm, moderate flavor, a good market fruit, a very productive Hermaphrodite; plant vigorous, very hardy. Per 500, \$3; per 1,000, \$5.....	25	75	1 00
60. * Prince's Late Globose , P, new, very distinct from Prince's Globose Scarlet, very large, rounded, firm, bright orange scarlet, the berries in large clusters, very showy, ripening 8 to 10 days after the main crop, valuable as a late market berry; plant vigorous, hardy, exceedingly productive. Per 500, \$8; per 1,000, \$15.....	1 00	2 50	4 00
61. * Prince's Scarlet Climax , P, a new and admirable variety, large, obtuse cone, bright scarlet, showy, sweet, juicy, fine flavor, suitable for market, very productive, valuable; plant vigorous, hardy. Some Nurseries are selling a very different kind as "Prince's Climax." The genuine variety is yet rare.....	2 00	4 00	6 00
Prolific Orange , see <i>Orange Prolific.</i>			
Pyramidal Chilian , see <i>Chilian.</i>			
62. Randolph Pine , originated by O. T. Hobbs, under medium, oblong pointed cone, light scarlet, good flavor, productive.....	50	1 50	2 00
63. Read's No. 1	25	75	1 00

		p. doz	p. 50	p. 100
	Read's Black Pine , large, crimson, sweet, good flavor.....	25	75	1 00
	Read's Golden Seed , H, inferior, small crop. <i>Rejected.</i> See <i>Jessie Read.</i>			
	Rival Hudson , inferior. <i>Rejected.</i>			
	Rosalind , P, rather large, short cone, bright scarlet, showy, fine flavor, productive, valuable for market. Per 500, \$3; per 1,000, \$5.....	25	75	1 00
	Scarlet Cone , inferior. <i>Rejected.</i>			
69.	Scarlet Magnate (Prince's) , P, a very distinct and peculiar berry, very large and heavy, frequently $1\frac{1}{2}$ inches in diameter, rounded, compressed, bright scarlet, juicy, sweet, very good flavor, a splendid fruit, very solid, suitable for long carriage, productive; plant hardy, very vigorous, large, broad foliage; flowers very small. Berries of larger average size and much more uniform than Hovey, also much superior in flavor, and scarcely any small berries. It requires a strong staminate as fertilizer. Price per 500, \$3; per 1,000, \$5.....	25	75	1 00
70.	Scarlet Melting , P, early, rather large, rounded or short cone, bright scarlet, showy, juicy, very good flavor, good family berry, rather soft for market, very productive. Price per 500, \$3; per 1,000, \$5.	25	75	1 00
	Scarlet Prolific , H, medium, conical, bright scarlet, extra sweet flavor, very productive, valuable. A seedling of Burr's New Pine, and a great improvement on that variety in flavor and productiveness.....	1 00	2 50	4 00
	Schneicke's Pistillate . <i>Rejected</i> by the Pomological Convention.			
	Scott's Seedling , poor bearer, inferior. <i>Rejected.</i>			
75.	Sirius , H, early, very large, some berries monstrous, light orange scarlet, obtuse cone, very good flavor, very productive for its sex. It is of the Iowa family, and sweeter than any other variety of its class, vigorous, and very hardy. Per 500, \$3; per 1000, \$5.....	25	75	1 00
	Superlative , P, medium, light scarlet, rich, spicy flavor, productive; plant vigorous and hardy. A seedling of Burr's Pine, and, like that, produces a moderate second crop in September, if irrigated....	75	2 00	3 00
77.	Suprema , P, large, obtuse cone, bright light scarlet, juicy, sprightly flavor, very productive, plant tall, vigorous. A seedling of the Iowa.....	1 00	2 50	4 00
78.	Supreme Staminate , H, monstrous, obtuse cone, bright deep scarlet, good flavor, a remarkable berry, fair crop for its sex; very vigorous, tall broad foliage.....	1 00	2 50	4 00

		p. doz	p. 50	p. 100
X 80.	Stewart , P, obtuse cone, dark scarlet, much grown for market at Baltimore. Per 500, \$6; per 1,000, \$10	50	1 50	2 00
X 81.	Trevirana , P, large, obtuse cone, light scarlet, showy, juicy, sprightly flavor, productive, valuable; foliage tall and vigorous.	1 00	2 50	4 00
X 82.	Triumph , H, very early, medium, fruit on long stems, pointed cone, beautiful scarlet, mild flavor, very productive, one of the earliest varieties producing large fruit. Price per 1,000, \$10.	50	1 50	2 50
	Triumphant Scarlet , H, very large, conical, bright scarlet, splendid, fine sprightly flavor, juicy, very great bearer, ripening gradually for two or three weeks; plant very hardy, vigorous.	1 00	2 50	4 00
X 84.	<i>Empire</i> Triumvirate , H, large obtuse cone, bright scarlet, good flavor, very productive. A seedling from the Iowa.	1 00	2 50	4 00
X 85.	Valencia , H, large obtuse cone, with a neck, bright scarlet, good flavor, valuable.	1 00	2 50	4 00
	Walker , H, large, obtuse cone, dark crimson, fine flavor, moderate crop, valuable. Per 500, \$3; per 1000, \$5.	25	75	1 00
88.	Wilson's Albany , H, character well known. Per 500, \$2½; per 1000, \$4.	25	60	75
	Wyoming , P, new, large, obtuse cone, dark scarlet, sweet, good flavor, productive. Seedling of Hovey, similar foliage.	50	1 50	2 00

SPLENDID NEW VARIETIES.

All the following to which an Asterisk is attached, and also Nos. 1, 4, 40, 50, 56, 60, 61, 81, 84 and 85 in the preceding list are new seedling Varieties, originated and especially selected by W. R. P. from many thousands, after a full trial of their merits. They are all estimable, and several are remarkably so.

	Albion , H, large, white, tinged rosy.			
90.	American Queen , P, very large, regular cone, bright scarlet, beautiful, good flavor, rather acid, productive. A new Seedling grown by Professor Huntsman.	1 50	5 00	8 00
X 91.	Austin's Seedling , H, originated by the Shakers at Watervliet, a seedling of the Iowa, very large, irregular cone, light scarlet, white at centre, often hollow, rather acid, quite soft, deficient in flavor, productive, will not bear long carriage; not suited for market, plant very vigorous, large broad foliage, very large runners.	1 00	3 00	4 00
	Ariadne , P, crimson, firm, large, conical, slight neck, detaches easily, large branching profuse clus-			

		p. doz	p. 50	p. 100
	ters, tall strong upright stems, sweet, very fine flavor, highly estimable, very productive; plant vigorous.	2 00	6 00	1000
92½	Downer's Prolific (of Kentucky), H, rather large, obtuse cone, bright scarlet, juicy, good flavor, productive. Per 500, \$5; per 1000, \$8.	38 1 00	1 00	1 50
	Estelle , H, very late, rather large, conical, with neck, dark scarlet, good flavor, exceedingly sweet, greatly productive, very small stamens.	1 00	2 50	4 00
93½	Fillmore , P, rather large, roundish, often depressed, crimson, firm, not sweet, poor flavor, vigorous, productive. Per 500, \$4½; per 1000, \$8.	38 1 00	1 00	1 50
	Fortunatus , P, large, obtuse cone or rounded, bright scarlet, very juicy, fine sprightly flavor, very productive.	1 00	2 50	4 00
95.	<i>red maid</i> Florence , P, very large, short cone or rounded, splendid scarlet, very showy, firm, red flesh, very juicy, fine flavor, exceedingly productive, estimable for market; the berries in large trusses on strong stems; plant very vigorous.	1 50	5 00	8 00
96.	Fragrant Scarlet , P, large, conical, scarlet, sweet, high perfumed flavor, very productive, estimable.	1 00	2 50	4 00
	Heroine , large, deep scarlet, rounded or obtuse cone, sweet, fine flavor.	1 00	2 50	4 00
	Iphigene , P, large, long cone, some coxcomb, deep crimson, rather acid, productive.	1 00	2 50	4 00
	Jennette , H, grown by R. S. Reeves, of Kentucky, said to be estimable.			
	Lady of the Lake , originated by J. C. Scott, of Brighton, Mass.			
	Lennig's White , originated in Pennsylvania, not yet offered for sale.			
100.	<i>Loverino</i> Minerva , P, large, obtuse cone, deep scarlet, very sweet, fine flavor, showy, an admirable fruit, on long scapes, valuable for market, very productive; plant vigorous and hardy.	1 50	4 00	6 00
	Nathalie , P, very large, conical, light scarlet, good flavor, remarkably productive; very tall vigorous foliage, valuable.	1 00	2 50	4 00
101.	Perfumed Pine , H, rather large, obtuse cone, firm, light bright scarlet, very juicy, sweet, high aromatic flavor; plant vigorous, very productive, combining many estimable properties, a Seedling of Burr's Pine. This, and the Le Baron, Superlative, Burr's Pine, Ladies' Pine, and Fragrant Scarlet may be considered the climax in flavor.	1 50	4 00	6 00
	Priscilla , P, very large, conical, scarlet, good flavor, very productive; plant vigorous, valuable.	1 00	2 50	4 00

Seedling of Cushing

		p. doz	p. 50	p. 100
102.	* Prince's Excelsior , P, rather late, very large, obtuse cone or rounded with a neck, deep scarlet, sweet, very high flavored, very estimable, greatly productive. One of the finest varieties, plant vigorous, large foliage.....	2 00	7 00	12 00
	* Sappho , H, very large, conical, light scarlet, beautiful, very productive, good flavor, quite valuable. A seedling from the Iowa.....	1 00	2 50	4 00
104.	* Seraphine , P, monstrous, obtuse cone, light bright scarlet, white inside, very showy, juicy, sprightly, pleasant flavor, a splendid berry, very productive, plant very vigorous, highly valuable.	1 50	4 00	6 00
	* Scarlet Frize , P, very large, late, rounded or obtuse cone, light bright scarlet, beautiful, sweet, fine flavor, productive, very estimable in all respects. A seedling of the Scarlet Magnate.....	1 50	4 00	6 00
106.	* Victorine , H, very large, conical, bright scarlet, firm for market, juicy, good flavor, showy, distinct, very productive and valuable; plant very vigorous, large foliage.....	1 50	4 00	6 00
	Ward's Favorite , P, a variety which Dr. J. M. Ward and others have found upon their grounds, the name unknown; large, round, crimson, sweet, juicy; fine flavor, productive, valuable. Price per 500, \$4; per 1000, \$7.....	38	75	1 00
108.	* Waverly , P, very large, oblong cone, dark scarlet, firm, juicy, good flavor, estimable. An extraordinary plant, very large, tall, luxuriant foliage; flower proportionably of small size.....	1 50	5 00	8 00
	* Warren , very large, rounded or obtuse cone, juicy, fine flavor, valuable.....	1 00	2 50	4 00
	* Welcome , P & S, earliest and handsomest variety that combines large size, fine flavor, and productiveness, a great acquisition. Large, conical, bright light scarlet, beautiful, very sweet, juicy, excellent flavor, very productive. The most important variety for market; must supersede all other early varieties.....	5 00		

**HAUTBOIS AND EUROPEAN WOOD STRAWBERRIES
—ALL ARE HERMAPHRODITES.**

The following, except No. 130, comprise all the species that are of European origin, thus presenting the same inferiority in this fruit when contrasted with those of our own Continent, as is exhibited in so many other sections of the Vegetable Kingdom. The European species and varieties, with the exception of the Green Alpine, produce their fruit on scapes rising above their foliage.

	p.doz	p.50	p.100
111. Fragaria Elatior , the original Hautbois type. The French call this class " <i>Caproniers</i> "	1 00		
112. Prolific Hautbois , or Autumn Prolific , large, high flavor. This, if grown in moist soil, will produce a second crop in September. Per 500, \$3; per 1,000, \$5	25	75	1 00
113. Myatt's Prolific Hautbois , estimable	50	1 50	2 00
114. Monstrous Hautbois , new, the latest and largest of its class, greatly esteemed. Four plants for \$1.			
115. Bijou des Fraises (Hautbois) , from Germany, new, very large, estimable. Four plants for \$1.			
116. La Belle Bordelaise (Hautbois) , early, exceedingly productive, medium size, conical, very high flavor, forces well. It produces an autumnal crop.	1 00	3 00	5 00
117. Green Alpine , or Pineapple	38	1 00	1 50
This is a distinct species, producing a considerable crop. Fruit moderate size, form flattened, greenish, tinged red, rich musky, pineapple flavor; fruit beneath the foliage, a curiosity, esteemed, ripens late.			
118. Red Wood, European , or Alpine Wood , ovate (called <i>Mammoth Alpine</i> at the West)	25	50	75
119. White Wood, European	25	50	75
The two preceding varieties, per 500, \$2 50; per 1,000, \$4.			
120. Montreuil Wood , crimson, long pointed cone, an estimable French variety, grown extensively for Paris markets, very productive	75	2 00	3 00
NOTE.—No. 118, 119, and 120, produce small fruit in abundance, which has a peculiar wild but not high flavor, and they are much esteemed, very productive, and long-bearing.			
ALPINE MONTHLY, OR QUATRE SAISONS.			
These are everbearing varieties of the European Wood Strawberry, and the fruit similar. Nos. 128 and 129 form stools, and never throw out any runners, and this renders them suitable for borders or edging. A moist soil, well enriched, is best suited to their culture.			
121. Alpine Monthly Red , running	25	75	1 00
122. Alpine Monthly White , running	38	1 00	1 50
The two preceding varieties, per 500, \$4; per 1,000, \$6.			
123. Versailles Alpine Monthly , red, new, largest of Alpines, estimable. Four plants \$1.			
123½. Poitou Alpine Monthly , red, new, estimable, very productive. Four plants \$1.			

	p. doz	p. 50	p. 100
124. La Meudonaise (Alpine) , red, monthly, running, large size for its class, perfumed, peculiar foliage, a superior French variety	1 00		
125. Gilbert's Large Brown Alpine Monthly .			
126. Gloire de Nancy Alpine Monthly .			
127. Gloire du Nord Alpine Monthly . The 3 last-named new varieties, each, four plants for \$1.			
128. Alpine Monthly Red Bush	50	1 50	2 50
129. Alpine Monthly White Bush	50	1 50	2 50
130. Indica, or Yellow Flowering , everbearing, showy crimson fruit, not eatable, ornamental only. It can be trained as a climber, and in the form of a small pyramid is very beautiful. Four plants for 25 cents.			
LARGE ENGLISH, FRENCH, AND BELGIAN STRAW-BERRIES—ALL ARE HERMAPHRODITES, EXCEPT INGRAM'S PRINCESS ROYAL.			
These are large and beautiful varieties, and nearly all are of high flavor. They must be grown in distinct stools, and require a strong, rich soil and good culture. The berries ripen gradually, and the plants continue long in bearing. An improvement, as regards hardihood, has been attained in several of the new estimable varieties, which is highly gratifying to amateurs, as the quality of the fruit is unexceptionable. The most hardy and productive are Nos. 133, 135, 136, 143, 146, 147, 151, 152, 154, 155, 156, 159, 162, 163, 164, 165, 166, 167, 174.			
131. Ambrosia (Nicholson).			
132. Auguste Retemeyer (De Jonghe).			
133. Beauty of England (Frewin), very large, oblong, deep red; flesh red, juicy, sweet, perfumed, very estimable, vigorous, productive. Per pair, \$1.			
134. Bicton Pine, or Barnes' White , large, white, tinged, obtuse cone; poor bearer, grown only as a curiosity	50		
135. Bonte de St Julien (Carré), early, large, round, very sweet, fine flavor, perfumed, very productive. British Queen , unproductive. <i>Rejected</i> .	1 00		
136. Carolina Superba (Kitley), extra large, obtuse cone, beautiful light scarlet, firm, sweet, flesh and flavor delicious, late, very productive, esteemed.	38	1 00	1 50
138. Comte de Flandres , superseded by many.			
138. Crimson Queen (Myatt), very large, form variable, rich crimson, juicy, firm, sweet, most agreeable, perfumed, first-rate, vigorous, late, moderate crop	1 00		
139. Delices du Palais (Nicaisse).			

	p.doz	p. 50	p.100
140. Deptford New White, or Excelsior , extra.			
142. Dr. Karl Koch (De Jonghe), extra.			
143. Duc de Malakoff (Gloede), conical, very large, often monstrous, deep scarlet, round or coxcomb, firm, sweet, apricot flavor; plant vigorous, productive, superior for forcing, has weighed $1\frac{3}{8}$ ounces	1	25	
144. Eliza (Rivers), very large, round, light scarlet, beautiful, juicy, excellent, long in bearing, moderate crop.	38	1 00	1 50
145. Emma (De Jonghe), extra.			
146. Empress Eugenie (Knevett), monstrous berry, has weighed $1\frac{1}{4}$ to $1\frac{1}{2}$ oz., ovate or coxcomb, deep, glossy crimson, red flesh, juicy, sweet, delightful flavor, exquisitely perfumed; vigorous, very productive, forces well.	2	00	
147. English Ladies' Finger , oblong form, orange scarlet, white flesh, sweet, high flavor, vigorous, productive. Four plants, \$1.			
148. Excellente (Lorio), very large, round or flattened, deep red, rosy flesh, very fine flavor, productive	50	1 50	2 00
149. Formosa , very large, often coxcomb, dull red, sweet, high flavor, moderate crop.	75		
150. Frogmore Late Pine (Ingram), large, conical, deep shining red, solid, juicy, rich flavor, vigorous, ripens late. Goliath (Kitley), inferior. <i>Rejected.</i>			
151. Imperatrice Eugenie (Gauthier), large, conical, bright glossy roseate, handsome, firm, sweet, perfumed. Per pair, \$1.50.			
152. Ingram's Princess Royal (<i>Pistillate</i>). This is an American variety of the <i>Fragaria Virginiana</i> , renamed in England. Berry dark scarlet, medium, rounded, sweet, good flavor, productive.	50	1 50	2 00
152½. Jucunda (Salter), very large, variable form, vermilion, sweet, juicy, but little perfume, vigorous, hardy, productive, ripens late.	50	1 50	2 00
153. La Chalonnaise (Nicaise), very large, beautiful, conical, or flattened, vermilion, flesh white, juicy, sweet, first quality	1	00	
154. La Constante (De Jonghe). Berry perfect in all respects, large, regular cone, brilliant scarlet, very firm, sweet, perfumed, exquisite flavor, ripens late; plant dwarf, vigorous, very productive, succeeds in all soils and situations, forces well.	1	00	
155. La Delicieuse (Lorio), large, round, or flattened, apricot color, yellowish flesh, very sweet, perfumed; plant vigorous, productive, very late. Per pair, \$1.			

	p. doz	p. 50	p. 100
156. La Grosse Sucree (De Jonghe), large, oblong, crimson at maturity, flesh white, solid, sweet, highly perfumed, vigorous, very productive, quite late. Per pair, \$1.50.			
157. La Reine (De Jonghe), medium to large, elongated form, rosy white, flesh white, firm, sweet, perfumed, a most interesting variety, but poor bearer.....	1	00	
158. La Reine (Scarlet), very large, globular, fine flavor, plant vigorous, hardy, fair crop.....	38	1 25	1 50
159. La Sultane (Nicaise), magnificent fruit, large, conical, often two seemingly united, brilliant scarlet, glazed, flesh white, solid, juicy, sweet, highly perfumed; plant very vigorous, productive. Per pair, \$2.			
159½. Lorio (Lorio), early, oblong, flattened, bright scarlet, rosy flesh, very sweet, perfumed, productive.			
160. Madame E. Vilmorin (Gloede), very large, variable in form, rosy orange, perfumed, exquisite flavor, moderate bearer.....	75	1 50	2 50
161. Margueritte (Lebreton).			
161. Marquis de Latour Maubourg . See No. 172.			
162. May Queen (Nicholson), very early, round, rather large, pale scarlet, sweet, fine aroma, excellent; earliest of its class, vigorous, productive, forces well.....	1	00	
163. Mrs. D. Neilson (Stewart & Neilson), large, variable in form, orange scarlet, juicy, sweet, high flavor; plant vigorous, productive, ripens very late. Per pair, \$1.			
164. Napoleon III. (Gloede), large, round, or flattened, bright roseate, flesh white, solid, sweet, delicious flavor; plant very vigorous and very productive, ripens late. Per pair, \$2.			
Omer Pasha , poor bearer. <i>Rejected.</i>			
165. Oscar (Bradley), large, often monstrous, rounded, flattened, sometimes coxcomb, rich crimson, very firm, but melting, very aromatic, exquisite flavor, one of the best; plant extremely vigorous, low and compact, foliage dark green, very productive, ripens early, forces admirably.....	1	00	
166. Prince Imperial (Graindorge), very early, medium, variable in form, bright scarlet, sweet, fine flavor, very productive, long in bearing, suitable for forcing.....	1	00	
167. Princess Frederick William (Niven), earliest of the Pine family, rounded, sometimes coxcomb, large size, brilliant scarlet, solid, sweet, high			

	p. doz	p. 50	p. 100
flavor; very vigorous, productive, forces admirably	2	00	
169. Sir Charles Napier , medium, long pointed cone, vermilion, beautiful, excellent flavor, very productive, suitable for forcing	50	1 50	2 00
170. Surprise (Myatt), monstrous, pale orange, moderate flavor, ripens late	1	00	
171. Triomphe de Gand , large obtuse cone, bright scarlet, juicy, deficient in flavor and perfume, firm, fair crop for its class, long in bearing, plant vigorous and hardy. Per 500, \$4; per 1000, \$7..	25	75	1 00
172. Vicomtesse Hericart de Thury , large, bright scarlet, round or flattened, very excellent flavor	25	75	1 00
Victoria (Trollope), poor bearer. <i>Rejected.</i>			
173. Wizard of the North , very large, variable form, deep crimson, flesh crimson, firm, sweet, soft, not high flavor, vigorous, very productive; has been overrated as to size	1	00	
174. Wonderful (Jeyes), very large, oblong, flattened, bright roseate, solid, juicy, sweet, fine flavor, plant vigorous, very productive, ripens late, bears long carriage	1	00	
175. Carolina Grandiflora , bright red, sweet, perfumed, poor bearer, very distinct. Per pair, \$1.			
177. Chili (true), monstrous, variable form, pale red, rosy flesh, medium crop. Per pair \$1.			
178. Chili White , fruit resembles the preceding, but is white or blush white; scarce and interesting. Per pair, \$1.			
179. Chili Orange , large, round, bright orange, yellowish flesh, very sweet, perfumed, best of the Chilians. Per pair, \$1.50.			
180. Turner's Pine , early, large, rounded, bright scarlet, rosy flesh, excellent quality, productive. per pair, \$1.			
181. General Havelock	1	50	
182. Madame Louesse	1	50	
183. Quinquefolia	1	50	
184. Royal Victoria	1	50	

REJECTED VARIETIES.

The Pomological Convention of 1858 rejected 75 varieties, as enumerated in their publication, comprising a mass that have been, and many which are still palmed upon the public, who are thereby grossly deceived. We ask every one to refer to that Rejected List—as it contains many not in the following list:

Admiral Dundas.
Ajax.

Eberlein's Seedling.
Elton.

WHOLESALE PRICES OF STRAWBERRY PLANTS.

When a large number of Strawberry Plants are wanted to form plantations for market purposes, the price can be arranged by negotiation, and superior assortments will be supplied lower than obtainable elsewhere. Some of the most abundant varieties can be supplied at \$4 to \$5 per 1000. Others, more rare, where no wholesale price is named, will be supplied at \$8 to \$15 per 1000. The selections in these cases to be made convenient to us, but with proper consideration and liberality towards the purchaser as to the kinds he may name and prefer, so far as convenient.
